

Portfolio Report For Health and Safety

Name Annette Parker

Date 4.2.26

Comment

- The bleed kit provided by APC is in place at Ansford Academy and is linked to Avon and Somerset police network.
- Caryford Hall has been asked whether they would consider at their next meeting, whether an external defibrillator could be placed on the outside walls of the hall. The suggestion is that the internal defibrillator could become an external one, with funding from APC for the external casing, so that the defibrillator is available even when the hall is closed.
- Email correspondence has been received from the company that provides skateboard training confirming that they will take registers in line with Department of Education guidance
- CCTC have been asked about repair of the pump track and other equipment in Fairfield and a reply has been received, which needs further consideration.
